**Russian research on the Vanguard corporation, the secret controller of the much of the Western corporate power structure.**

The four companies that are present in all cases below and in all decisions: **Vanguard, Fidelity, BlackRock and State Street**. All of them “belong together”, but if to check out carefully the balance of shares, it turns out that in reality all these companies controlled by Vanguard. So, all of these partners or “competitors” of Fidelity, BlackRock and State Street belong to Vanguard Group.

Please, look at the largest, companies in various industries, controlled by the “Big Four”, and upon closer inspection control by Corporation Vanguard: **Alcoa Inc. Altria Group Inc., American International Group Inc., AT & T Inc., Boeing Co., Caterpillar Inc., Coca-Cola Co., DuPont & Co., Exxon Mobil Corp., General Electric Co., General Motors Corporation, Hewlett- Packard Co., Home Depot Inc., Honeywell International Inc., Intel Corp., International Business Machines Corp., Johnson & Johnson, JP Morgan Chase & Co., McDonald’s Corp., Merck & Co. Inc., Microsoft Corp., 3M Co., Pfizer Inc., Procter & Gamble Co., United Technologies Corp., Verizon Communications Inc., Wal-Mart Stores Inc. Time Warner, Walt Disney, the corporation «Halliburton», Viacom, Rupert Murdoch’s News Corporation, CBS Corporation, NBC Universal ...**

To date, tens of trillions of dollars are controlled by these investors, and all of the major global corporations controlled by the group of investors that **own asset management group Vanguard: Dick Cheney, the Rothschilds, the Bushes, the Rockefellers, Clintons, Donald Rumsfeld and many other influential people and owners of the Federal Reserve**. They

virtually monopolized foreign and US defense policy and almost all of the major defense corporations.

Group Vanguard, itself, also controls the major world media. In addition, Corporation Vanguard is working on a number of key figures of the Central Intelligence Agency, including the namesake of a President of Vanguard , the CIA Director John Brennan.

**It is important to know who really controls the major banks, and we will start from the United States.**

In the first place - JP Morgan Chase with 2.39 trillion dollars of assets. Its large institutional investor is Vanguard Group, Inc. Between the top ten investors the Vanguard Total Stock Market Index Fund, Vanguard Institutional Index Fund and the Vanguard 500 Index Fund.

In second place – Bank of America with assets 2.17 trillion. Its large institutional investor is Vanguard Group, Inc. The top ten investors – investment funds – Vanguard Total Stock Market Index Fund, Vanguard Institutional Index Fund, Vanguard 500 Index Fund and Vanguard / Windsor II.

We should consider that some of them, for example, «Fidelity» – this is also Vanguard, and some others, for example, «JPMorgan», is fully controlled by Vanguard, as well. «Fidelity» and its structures belong to Vanguard...

And finally, Warren Buffett’s favorite–Wells Fargo. Assets: 1.44 trillion, deposits: 1.01 trillion. The list of the largest institutional investors: Vanguard Group, Inc. is only in second place, but this

is offset by the top ten investors – investment funds: Vanguard Total Stock Market Index Fund, Fidelity Contra Fund, Inc., Vanguard Institutional Index Fund, Vanguard 500 Index Fund and Vanguard / Wellington Fund, Inc. (All of them are Vanguard’s “daughters”)

All of them “belong together”, but if to check out carefully the balance of shares, it turns out that in reality all these companies controlled by Vanguard. So, all of these partners or

“competitors” Fidelity, BlackRock and State Street belong to Vanguard Group.

In contrast to the Vanguard and Fidelity, holding voting shares, Brin interests in income rather than in control, so all of his shares belong to the category B that filed under section 14 (A) of the Act of 1934 “On Securities Exchanges ” declaration signed by Eric Schmidt. The number of category A shares that owned by Sergey Brin is 0.

However, Brin as a Director, who voting by proxy uses not his shares, but information about the owners of these shares I did not find, and it is possible that among owners of these shares would be the same Vanguard.
